Stavanger, Norway / Huelva, Spain » Location

Summary

4th-year Software Engineering student currently on an exchange program at UiS, with a strong foundation in backend development, algorithms, and data modeling. Highly adaptable and fluent in Spanish and English, seeking a Summer 2027 Internship to apply my technical skills and continue growing in a real-world, agile environment.

Education

Universitetet i Stavanger (UiS)

BSc Computer Engineering (Exchange)

Stavanger, Norway

Aug 2026 – Jun 2027

Universidad de Huelva (UHU)

BSc Computer Engineering

Huelva, Spain

Sep 2023 – Expected Graduation Jun 2028

Experience

321 Carpet and Flooring

Floor Installer and Carpet Specialist (Summer Work & Travel)

North Carolina, USA

Jun 2024 – Sep 2024

- o Demonstrated high adaptability and cross-cultural teamwork in a fast-paced US environment, communicating fluently in English while managing logistical challenges.

Data Collector

RWS

Fully Remote

Sep 2024 – Present

- o Execute short-term data analysis and AI training assignments, contributing to the optimization of user interfaces in a fully remote, self-managed capacity.

Projects

Telecom Billing System Backend

Backend Developer (C++, OOP)

- o Object-Oriented Programming and robust systems logic implementation for mobile telecommunication customer and billing management.

Minimax AI Engine.

AI & Algorithms Developer (Python)

- o Adversarial search AI engine implementing the Minimax algorithm with Alpha-Beta pruning for optimal game-tree evaluation.

Tournament Optimization Algorithm

Algorithms Developer (Python / C++)

- o Algorithmic optimization solving bracket pairing, resource allocation, and tournament match scheduling using greedy heuristics.

Numerical Modeling on Python

Data Science Developer (Python)

- o Computational simulations and numerical methods for differential equations, complex data modeling, and mathematical analysis.

Skills

Languages: C++, C, Java, Python, SQL, GO, JavaScript

Tools & Tech: Visual Studio Code, Tailwind CSS, Figma, Git, Cursor, Visual Studio, DBeaver, Oracle

Specialties: Data Structures, Object-Oriented Programming (OOP), Software Design Patterns, Concurrency, AI algorithms
