Summary

Aspiring FULL-STACK Software Engineer with a solid foundation in systems development, algorithms, and Data. Currently undertaking a 4th-year international exchange program at UiS, diving deep into advanced software engineering, distributed systems, Numerical Modeling and robotics.

Education

Universitetet i Stavanger (UiS)

BSc Computer Engineering (Exchange)

Stavanger, Norway

2026 – 2027

Universidad de Huelva (UHU)

BSc Computer Engineering

Huelva, Spain

2023 – 2027

Experience

321 Carpet and Flooring

Floor Installer and Carpet Specialist (Summer Work & Travel)

North Carolina, USA

Jun 2024 – Sep 2024

- o Immersive professional experience in the US.
- o Developed fluent English communication and high adaptability in demanding physical logistics and teamwork environments.

Data Collector

RWS

Fully Remote

Sep 2024 – Present

- o I am registered as a data collector with RWS, fully remote.
- o My role involves taking on short-term assignments (ranging from three days to a week) and performing tasks such as data analysis and AI training, as well as managing and optimizing user interfaces and web pages.

Projects

APP phone company

Backend Developer (C++, OOP)

- o Object-Oriented Programming and robust systems logic implementation for mobile telecommunication customer and billing management.

Alpha Beta implementation tic tac toe

AI & Algorithms Developer (Python)

- o Adversarial search AI engine implementing the Minimax algorithm with Alpha-Beta pruning for optimal game-tree evaluation.

Greedy algorithms implementation for bar tournament

Algorithms Developer (Python / C++)

- o Algorithmic optimization solving bracket pairing, resource allocation, and tournament match scheduling using greedy heuristics.

Numerical-Modeling-on-Python

Data Science Developer (Python)

- o Computational simulations and numerical methods for differential equations, complex data modeling, and mathematical analysis.

Skills

Languages: C++, C, Java, Python, SQL, GO, JavaScript

Tools & Tech: Visual Studio Code, Tailwind CSS, Figma, Git, Cursor, Visual Studio, DBeaver, Oracle

Specialties: Data Structures, Object-Oriented Programming (OOP), Software Design Patterns, Concurrency, AI algorithms
